

Times Are Changing, And So Are The Rules Of Game

Experience Fuel Delivery Like Never Before...

Experience Fast and Hassle-Free Fuel Delivery, Directly To Your Point of Need.

Getting an uninterrupted supply of fuel (read quality fuel) is a challenge that every organisation faces. Poor quality fuel not only causes financial loss but also adversely affects the life of the machines. The challenge becomes even greater in areas with low access or no access to fuel.

But all that is set to change now. The Fuel Delivery (TFD) is here to unleash a new era of Fuel Entrepreneurship (FuelEnt) in India. The TFD mobile app makes ordering fuel simple, quick, and cost-effective. The company sources the fuel directly from OMCs and delivers it directly to customers' doorsteps. Following the PESO certified protocols and vehicles; we ensure you get quality delivered to your doorstep, fuel without pilferage or wasting valuable person-hours.

We strive to change fuel delivery and initiate the FuelEnt revolution in India by transporting diesel to your doorstep.

The TFD Advantage:

Increase Life of Your Machinery
With Top Quality Fuel

Get every drop of diesel that you pay for
